In order to receive approval for a social work program that is attended or received within the State of WV, the presenting organization must file an application with the WVBSWE Continuing Education Committee for pre-approval. The Committee meets on the second Friday of every month to review applications and attend to various continuing education issues. The application MUST be received and reviewed by the Committee in advance of the program presentation.

The same program topic and title may be repeated (three presentations under a single application) under one application. A program with a separate title, content, or topic requires an additional application. Review the WV Continuing Education Policies & Procedures for information on becoming a “Certified Provider.
